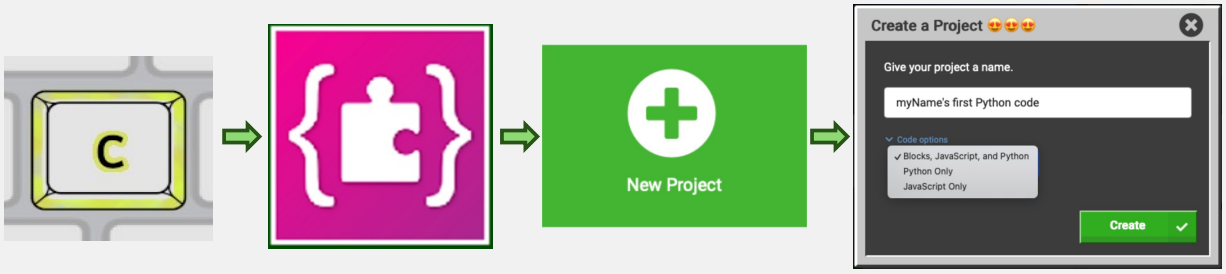
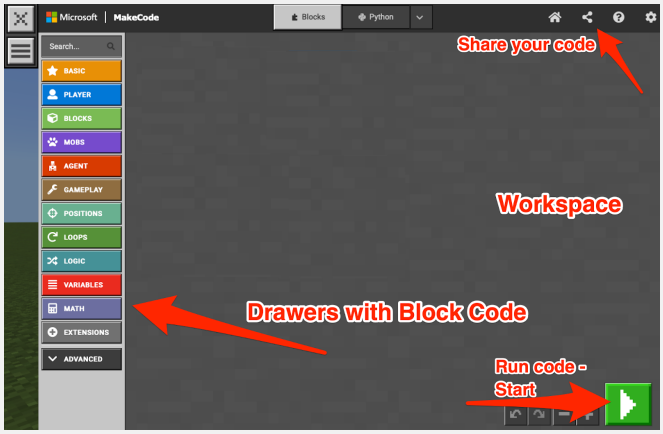
MINECRAFT MAKECODE PYTHON

Welcome to Python Coding!

First: Start Minecraft!
Name your world using the settings your teacher expects.

Next: Start Coding!
1. **Press C** on your Keyboard
2. Choose the **Pink Puzzle Piece**
3. Click the **green + plus sign** to create a new project.
4. **Name your project** (follow your teacher's directions)





5. Choose **Python Only** under your project name
6. Click the **green Create button**
7. You're now in the **MakeCode Workspace,** ready to code!
